Religion

Research and find out as much as you can about the following: **Lent**, **St. David's Day (1st March)**, **Mothering Sunday (14th March)**, **St. Patrick's Day (17th March)**, **Holy Week** and **Easter**.

Remember to read the **Wednesday Word** online if you can at www.wednesdayword.org

Projects – put 100% effort in and present your work neatly and creatively!

History Project 'The Bronze Age and the Iron Age'

During our 'Enrichment' lessons, we have looked at the following Bronze Age topics:

- How was bronze made? Why were bronze tools better than stone tools?
- When did the Bronze Age begin/end in Britain?
- The Beaker People
- The Amesbury Archer
- Stonehenge

This half term, we will be learning about what came AFTER the Bronze Age – The Iron Age!

Continue your project by researching about what life was like during the Iron Age.

Here are some useful websites:

<https://www.dkfindout.com/uk/history/iron-age/>

<https://www.bbc.co.uk/bitesize/topics/z82hsbk/articles/z8bkwmn>

You could create a **non-chronological report about the Iron Age**, **design your own Celtic pattern**, **learn how to weave using paper or wool** or **create an Iron Age roundhouse!**

Geography Project 'The Rainforest'

During our 'Enrichment' lessons, we have looked at the following rainforest topics:

1. The locations of rainforests around the world
2. Climate
3. The different layers of the rainforest
4. Rainforest Animals

This half term, we will be exploring the **plants and flowers** that grow in the rainforest, which will lead to an exploration of the global problem of **deforestation**.

Continue your research project by exploring the plant life found in the rainforest. Here is a useful website that shows you many of the different types of rainforest plant:

<https://www.activewild.com/tropical-rainforest-plants-list/>

Use the information to add a **rainforest plant fact file** to your project.

To understand how serious the problem of deforestation is, visit this website:

<https://www.theworldcounts.com/stories/deforestation-facts-for-kids>

It explains why rainforests are so important, and what we can do to help preserve them. Use the rest of your time on this project to **explore and explain deforestation**, then think about ways to help. You could produce some **recycled art**, **make a poster for teamtrees.org**, **write a persuasive letter/leaflet about the importance of paper recycling**, and design a recycling machine to help combat paper waste.

Bring your projects back to school with you when we can safely return. **We can't wait to see them!**

Mrs Varley and Mr Sullivan
