

Class 1

For Anti-Bullying week we designed socks that were different. This was to show that even though we are all unique we can live and work together in harmony, just like a good old pair of socks.

For Geography we explored our local area. We took a long walk, making note of all the different and unusual things close to our school. Did you know there is a huge bee not far from school? Can you find it?

As part of History and Art we designed pop-up or sliding toys. We were inspired by Belle Vue Circus. Here is an example of a very agile tightrope walker.

In PSHE during Black History month we learned about Tessa Sanderson. We made paper airplane javelins and had an Olympic style competition. Here were our finalists. Can you guess who won the gold?
