

Class 13

In **science**, we learned about **electricity**, and made bed-side lamps. This was a cross-curricular project with **D&T** which promoted wonderful creativity!

The theme for this year's **Children's Mental Health** week was 'Let's **Connect**'. We designed these fantastic posters, highlighting ways in which we can connect with ourselves and each other.

In our **Religion** lessons, we have been learning about **The Bible**, and have created our own 'Mini Bibles', including stories from the Old and New Testaments, including their scripture references.

During **literacy** lessons, we have been using figurative language to enhance our **descriptive writing**. We used our class reader, 'Skellig', as our writing stimulus.
