

Class 5

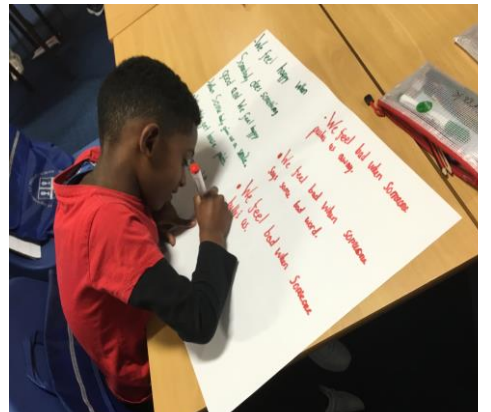

This half term year 3 have been combining their computing skills with our PSHE topic to produce an animation all about the effects of climate change.

In RE, for our Caritas this term, our children have been considering the roles which workers play in their lives and writing lovely thank you messages to them.

Well done Class 5, you all tried your hardest during assessment week and you all did very well. We are very proud of you all!

During PSHE this term we have been discussing the nature and consequences of discrimination and teasing, including physical bullying and emotional online bullying.
