

Class 1

During our History topic we looked at explorers for the past. We then acted out their adventures. Christopher Columbus looked across the sea to find the 'New Land' America.

On Wednesday we have music with Miss Eccles. Here we are practising a piece of music with our musical instruments.

During our Science lesson we are learning about different materials. We had a practical lesson touching and looking at materials and deciding what properties they have.

One of our favourite times in Year 1 is when Mrs Morrow comes to teach us DT. This term we have been looking at playground structures. We made slides, swings and see-saws.
