

Class 5

For World book day we talked about our favourite books. We designed our own bookmarks. We could choose which activities we wanted to do – it was so much fun!

For DT this term we had to design and make something healthy so we linked this with our history topic (Stone Age) and used berries which we could have gathered to make oat bars.

It is always lovely to have Miss Amanda in class to help us with our Design and Technology which was “pivots and levers”. We made our own moving pictures!

STEM day 14.03.2023

We had a great time on STEM day dressing up and completing some exciting science experiments. We also designed a building to go on the moon in Maths.
