

## Class 7

In RE, our focus was family and community. We created individual hand prints to represent that we are all unique but we can also come together to create something beautiful.

In Art, our focus this half term was the work of William Morris. We created our own designs inspired by William Morris using different types of media such as soft pastels, pencil crayons and sketching pencils.

In History, Tony North came to visit us in class 7. He taught us all about Roman soldiers and what they wore, and how they used their weapons in combat.

We also created our own gladius (Latin word for sword) with Tony North! We also learnt about Roman and Celtic metal art and created our own coin replicas!
