

Class 5

For our Caritas in Action this term, we spoke about what communities we were in, and the importance of friends and family.

In our Religion lessons, we created short dramas illustrating aspects of the behaviour shown in Colossians such as being kind to others.

We have begun Ukulele lessons in Year 3 and we are really enjoying learning how to play!

During Science this half term, we have been learning about human and animal skeletons. We did an investigation measuring the teachers and children's bones.
