

Class 1

We had a Harvest collection for Cornerstone. We brought it some goods which will be delivered to help the homeless very soon.

In DT we are looking at levers and sliders. During our investigations we looked at books that had levers and sliders in.

During our Religion lessons we were learning how important we are to God. We are unique and special. We painted our self-portraits and displayed them in our classroom.

We had an exciting afternoon recently when we learned all about taste in our Science lesson. We had a taste test and noted our reactions. Some of us loved lemons other did not.
