

## Class 7

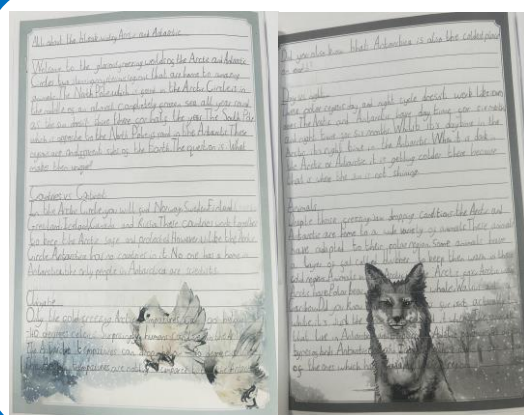

In Relationship Studies, we learnt about how we are similar but also different to each other by playing different games. We ended our lesson by saying a prayer together thanking God for making us all unique.

In DT, we made Mexican Bean Burgers! We learnt about where our food comes from and the origins of Mexican food. We learnt that Mexican food originates from the Maya civilisation!

In Science this half term, we have been learning all about Sound. We used string telephones to see if we were able to communicate with our partners over a distance. We found that sound travels better through solids and we could hear our partners better through string than the air!

In writing this half term, we have been writing a Non-Chronological Report all about the Arctic and Antarctic Circle. Our success criteria was to include: a title, subheadings, factual information and present tense verbs and some of us even included a glossary!
