

Class 12

During Art We learned how to use watercolours to create some amazing scenes of Dunkirk beach (linked to our WWII topic). First, we had to sketch our drawing before using drawing gum to stop the watercolours leaking.

Our DT topic this term was Pulleys and Gears. We each made a motorised vehicle. To begin we designed a circuit and then built it - it was so much fun!

Our R.E. lessons this half term have been focusing on expectations. We thought about our advent expectations and wrote them on baubles to be placed on our advent tree.

We had a fantastic time at the Stockport Air Raid Shelters. We learned about what it must have been like for evacuee children during WW2.
