

## Class 13

In Design and Technology this half term, we learned about pulleys and gears. We designed and made our own motorised vehicles. They looked amazing!

In November, we took part in Anti-Bullying Week. We watched a BBC Teach live lesson which explored how to 'make a noise' about bullying and we made our own anti-bullying posters.

As part of our WW2 topic, we have learnt about the Evacuation of Dunkirk. Here, we are standing in front of our Dunkirk display on which our descriptive writing (in the role of a soldier on Dunkirk beach) is showcased.

We have visited Stockport Air Raid Shelters, dressed as evacuees. This was a fantastic experience during which we got to explore the shelters, carry out a gas mask drill and handle a range of artefacts from that period.
