

# Class 1

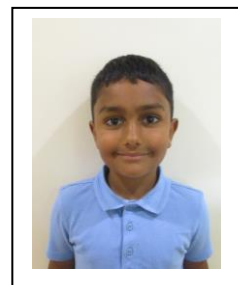

As part of our Science we have been looking at different seasons. We searched for signs of winter. The snow was a very big clue that it was winter.

We made a snowman with the fresh snow. We wouldn't have been able to make him in summer. We named him Chilly Billy.

In Religion we acted out a baptism. We had a priest, parents, god-parents and the baby. We talked about the symbols of baptism and how important the sacraments is to Christians.

In History we have been learning about Famous Explorers. The first explorer we looked at was Neil Armstrong. Hayk researched him at home and produced this fact file all about him.
