

Class 2

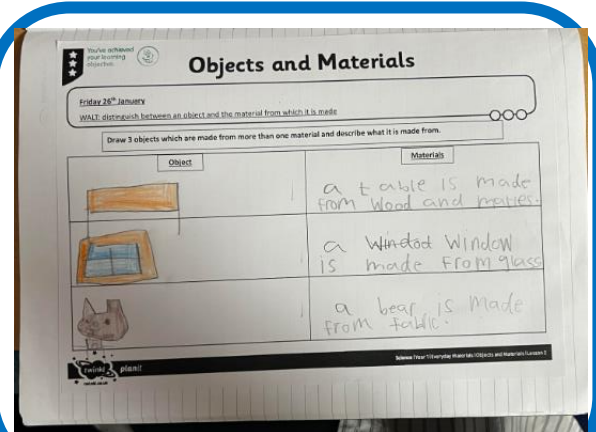

In our Numeracy lessons, we have started looking at number bonds to 20 and doubles. The children have been using counters to work out doubles and halves of numbers up to 20.

In PSHE we learnt all about the Chinese New Year. We were very fascinated by the animal race and how the years got their animals assigned. Then, we created Chinese lanterns and a dragon mask.

In literacy we have been looking at non-fiction texts. We created our own fact file about elephants after we did some research. We described what they are, what they look like and what they eat.

We have been investigating everyday materials and their properties in science. The children have tested various objects for their properties to find out what material is suitable for different occasions.
