

Class 9

In Art, class 9 have been working on a Viking project. We have been experimenting with paint to create different textures. We have also been drawing Viking ship heads and tails.

In our computing lessons with Miss Copley we used Micro: bits. We had to create a code to then show an image on our micro: bit. We created faces, a rocket and a beating heart.

We had lots of fun preparing for our class assembly on our Religion topic 'mission.' We thought lots about our mission in life and who inspires us to live out our mission. We also discussed the importance of our school mission statement.

To celebrate Ash Wednesday, all KS2 went to church to take part in a special Mass. We had ashes put on our heads and discussed the importance of praying, fasting and almsgiving during Lent with Father Chris.
