

## Class 7

This half term, we had our class assembly which was all about Self-Discipline and the Easter Story. We dramatised the events of the holy week and explained what we learnt from Jesus' resurrection.

In geography, we have been learning all about the water cycle. We conducted an experiment to see the different states of matter. Here is a frozen water balloon which went through the process of freezing – going from a liquid to a solid.

For Mother's Day, we created cards for our mums as they are one of the most important people in our lives. We picked their favourite colours and created a wreath using tissue paper!

In RE, we have been learning all about the Holy Week. We learnt that on Maundy Thursday, Jesus met with his disciples and washed their feet. We then dramatised these events!
