

R1

We have really enjoyed looking after the flowers in our spring garden and seeing them grow. We've also been watching our caterpillars turn into cocoons!

Our topic this term is Spring and Growing. We planted seeds to grow our very own beanstalks and observe what happens in a bean lifecycle.

We have been learning about the life cycle of a butterfly. We re-enacted the life cycle ourselves and then sequenced each stage using different pasta shapes.

As we celebrate Lent and look forward to Easter, we made a Lenten Promise tree with all our different promises to keep for Lent.
