

Class 4

As part of our Geography Field Work, Class 4 went on a trip to Lyme Park. We walked up to the cage, visited the playground and toured the amazing Lyme Hall.

We have been learning about Plants in Science. We have been making observations of different plants and trees. Back in school. We completed detailed observational drawings.

In an art skills lesson, we looked at different tones and shades of colour. We used paint to mix our own colours.

On Tuesday 21st May, we celebrated Cultural Diversity Day. Class 3 loved wearing traditional clothes and discussing their family heritage.
