

Class 6

It was UN cultural diversity day on Tuesday – the children looked great dressed in clothes that represented their cultures, and they enjoyed sharing what their culture means to them.

We had a cross curricular session with Amanda Murrow where the children made magnetic mazes, summing up our learning on forces and magnets in science.

We had a cross curricular session with Amanda Murrow where Class 6 learned about how shadows are created and how light travels through different materials by making shadow puppets.

As part of the building the kingdom task for our new RE topic, children made Pentecost wind chimes. These represent the energy of the wind and fire,, reminding children of the power of the Holy Spirit.
