

Class 9

During our Carbon Education lessons, we took part in an outdoor learning session. We took the time to stop and listen to the things around us.

To celebrate our class Liturgy, a group of us led a session all about Pentecost. We read some scripture and said prayers all together.

During our Art lessons with Mrs Berry we have been working on our painting skills. We have been using our observational skills to look closely at detail, texture and colour.

In our Relationships Education lessons we have been learning all about giving assistance during an emergency. We discussed how to safely put someone into the recovery position and when we should do this.
