

## Reception 2

We celebrated Pentecost by making Holy Spirit streamers and headbands. We went on a Pentecostal Parade and sang our favourite hymns.

We made the most of the good weather by visiting our Church Garden and making observational drawings of God's creations.

Our topic has been about exploring Dinosaurs. We took part in dino excavations, role playing, and using clay to make our own fossils.

We welcome students and their families from a lot of different countries and cultures. For UN culture day we celebrated by wearing traditional clothes.
