

Class 8

In Design & Technology, we were visited by Amanda! We designed and sewed our own drawstring bags using a running stitch.

In Science, we have been learning about states of matter. We conducted an experiment to see which temperature of water would melt chocolate the fastest.

In English, we have been learning about persuasive writing. We designed our own chocolate bar for Willy Wonka along with an advert to convince him to produce it in his factory.

In PE, we had great fun visiting Belle Vue basketball hall for our Sports Day! We participated in different sports including javelin, long jump, shooting hoops and relay races.
