

Class 6

Class 6 investigated the question 'Are the bones in larger people bigger?' by measuring the skull, handspan and height of each person

In maths we have looked at how we can represent, compare and order numbers up to a thousand, building towards adding and subtracting using our place value knowledge.

We have been thinking about what a sacrament is by contributing to a class thought bubble. We have also learnt about the promises and commitments made during baptism, an important sacrament.

For our caritas focus, class 6 have been thinking about what makes a community, which communities we are a part of and what it means to be a good community member.
