

Class 5

We were visited by The Freshwater Company in relation to our Geography topic of Volcanoes. We really enjoyed their visit!

In Class 5 we had a Celebration of the Word child led Liturgy. Josiane, Isabella and Jay did a wonderful job!

In our Science work this term we are studying 'Rocks'. Our first task was to classify different rocks by their characteristics.

Our Assembly in Class 5 was all about sharing what we have with each other. We hope you enjoyed our ideas, presentation and ukulele playing.
